

PO

Penetrating Oil & Rust Remover

REMOVES & PROTECTS AGAINST RUST

PROPERTIES:

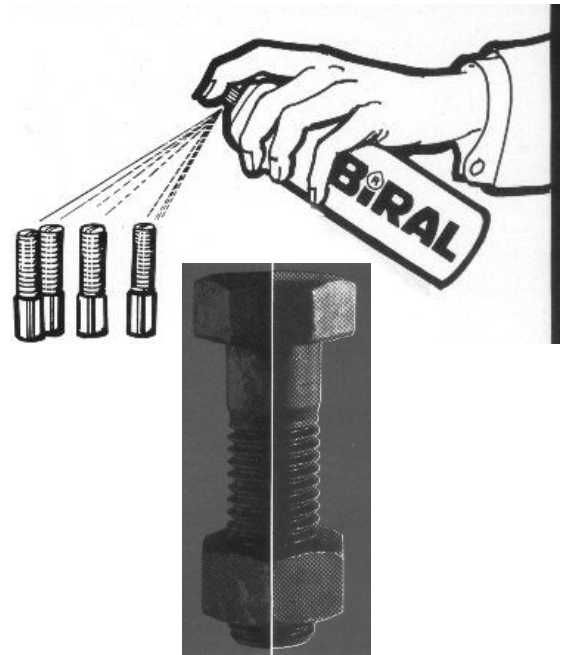

Specific gravity at 15°C:	0.85
Viscosity: cST at 40°C:	15
ISO VG:	15
Colour:	ASTM D 1500 1.0
Flash Point: ASTM D 92°C	115
Pour Point:	-45°C

OPERATIONAL PERFORMANCE

- BiRAL PO is regarded as the world's best penetrating oil and rust remover.
- PO boasts exceptional penetration
- PO rapidly eases seized bolts/threads
- PO provides long term protection from rust
- PO provides an excellent, fine lube film

AREAS OF APPLICATION:

- BiRAL PO penetrates rapidly and very deeply into the innermost, normally inaccessible parts of rusted and seized components.
- Normal applications will free seized items in a few minutes.
- In extreme cases it is advisable to spray the component two or three times over a period of 20-30 minutes, allowing the PO to penetrate deeply, before attempting to loosen the item.
- Surface accretions of rust can be removed by spraying, allowing to soak for a few minutes and then gently removed by rubbing with copper or soft metal pads, emery paper or similar abrasive agents.
